

BIRDXPPELLER® PRO

SINGLE SPEAKER SONIC BIRD DETERRENT

The BirdXPeller® PRO gets rid of birds by emitting a variety of naturally recorded distress calls and predator calls that frighten and disorient pest birds. The authentic calls warn birds of an emergency and create a “danger zone,” deterring them from the area. The weather-resistant system is completely programmable and utilizes real sounds with clear and high-definition playback. The BirdXPeller® PRO is a safe and humane solution to protect your property from bird infestation. With three versions to choose from, you can tailor your bird control to work for you.

Version 1: Pigeons, starlings, sparrows, gulls

Version 2: Crows, ravens, blackbirds, grackles, cormorants

Version WP (Woodpecker PRO): Woodpeckers, sparrows

Applications: outdoor areas, private homes, parks, open lots, canopies, awnings, eaves, rafters, ceilings, entrances, warehouses, hangars, garages, barns, sheds, rooftops, parking lots, fields, buildings

Specifications

Coverage	up to 1 acre
Power Requirements	110 or 220vAC or 12vDC (110vAC adapter included; 12v battery not included, alligator clip required for battery)
Dimensions	6" x 9" x 4"
Weight	3 lbs.
Sound Pressure	105 - 110 dB at 1 meter
Frequency	3 - 5 kHz
Compliance	Supply power source is UL and CE listed. EPA Est. 075310-OR-001.
SKU	BXP-PRO 1, BXP-PRO 2, BXP-PRO WP
Origin	Assembled in the USA
