Pints (per Day)	90 Pints (AHAM)
Plug Type	NEMA 5-15P
Type	Dehumidifiers

Notes & Details

Ensure that your establishment maintains a comfortable humidity level with this Boltic 145 pint commercial crawl space dehumidifier! This unit boasts a durable roto-molded plastic housing to withstand regular use, and it includes wheels for convenient mobility. Its compact size makes it ideal for use in crawl spaces, basements, and attics. It removes 145 pints of water per day at saturation and 90 pints of water per day in a setting at 80 degrees Fahrenheit with 60% relative humidity.

This dehumidifier is designed to allow you to set your desired humidity level. It includes an internal tank to allow you to collect water and discard it when the tank gets full. It also comes with a hose that allows the dehumidifier to immediately discard the collected water into a drain. This 740W unit requires a 115V electrical connection for use. Keep your establishment comfortable with this Boltic dehumidifier!
