Notes & Details

Keep your workspace warm and comfortable with this Boltic infrared heater! This 1,500W heater provides instant heat for spaces up to 172 sq. ft. It emits short-wavelength infrared radiation to produce high-intensity heat. It uses an infrared carbon fiber heating element with a gold-colored coating, which offers a high level of reflectivity for a more efficient, focused heat transfer. Plus, it has a durable aluminum shell for long-lasting use.

This heater is easy to operate with the included remote control. It features 2 different power levels to suit the specific needs of your space. This heater boasts a sleek black color, and it is IP55 rated for protection against dust and water. It can be mounted horizontally on the wall or ceiling using the included hardware. For safe use, it includes overheat protection. This unit requires a 120V hardwired electrical connection for operation.
