Notes & Details

Serve delicious Hawaiian shaved ice, kakigori, or sno-balls in a variety of tasty flavors with the Carnival King IBS250 block ice shaver! This unit can shave up to 360 lb. an hour of fluffy, snow-textured ice to ensure you have a constant supply of ice during your busiest hours. This durable machine can fit ice blocks up to 7" x 7" to accommodate high volumes of orders. The adjustable shave settings and corkscrew design accommodate a wide range of ice consistencies, from coarse, to fine, to fluffy. The user-friendly controls make it easy to turn an ice block into an exciting customer experience for made-to-order treats. The foot pedal easily provides hands-free operation so you can effortlessly process ice.

Bring the increasingly popular varieties of shaved ice to your customers by adding this unit to your bubble tea shop, concession stand, or food truck! Incorporate diverse toppings like frozen fruit, bursting boba, condensed milk, matcha, or syrups into your iced delicacies and watch your customers keep coming back for more! The powerful 1/3 HP motor is designed to give you the power and reliability you need throughout the day. Thanks to its plastic safety shield and removable drip tray, you can be sure that your ice-shaving operation is both safe and sanitary! The plastic shield also includes a safety switch to prevent accidents. Beloved everywhere from beach shacks and bubble tea shops to carnivals and concession stands, shaved ice is an inexpensive way to be more creative and turn a higher profit. Your customers will enjoy the refreshing ice treat during the hot summer months! This unit requires a 120V electrical connection for operation.
