 5-15P

 ETL Listed

Notes & Details

Make buckets of delicious popcorn for your eager customers with this Carnival King popcorn popper starter kit with 4 oz. popper, cart, and supplies! You'll be producing fresh popcorn for the masses almost immediately since the stainless steel kettle, with its 470W of heating power, needs just 3-4 minutes to preheat. Once the unit begins cooking, finished popcorn falls to the popper's warming deck, where it's kept fresh until you're ready to serve. That crisp, tantalizing popcorn will easily catch the customer's eye through the crystal clear windows under the PM470 popper's warmer light, which illuminates the popcorn for excellent merchandising. The powerful motor boasts impressively silent operation to give you the production you need without distracting customers.

An excellent addition to state fairs, stadiums, and fundraising events, this popper comes with a small plastic scoop and measuring spoons that makes operation a breeze right out of the box! The front, back, and side see-through clear panels that make up the cabinet are all plastic, while the removable crumb tray, kettle, and the interior top / bottom are made of stainless steel. The unit's red frame is stainless steel as well, while the top is constructed of powder-coated steel for impressive durability. The removable stainless steel kettle and kernel tray make cleaning a breeze, while the 3/4" rubber feet prevent scuff marks and provide additional stability. This unit requires a 120V electrical connection.

Designed for indoor use, the included cart is ideal for locations with limited counter space. The brightly colored cart provides an eye-catching display when paired with your illuminated popcorn popper. With its sturdy side handle and dual 16" rear wheels, this unit not only looks great, but also provides the versatility to move your machine for cleaning and routine maintenance! Two adjustable, non-marking feet are also included to keep your cart level on any surface. This cart comes standard with a side shelf to conveniently hold scoops, popcorn cups, or any other necessary supplies to help make your popcorn sales soar! Plus, the inner cabinet offers even more storage capacity. It's covered by a door with a magnetic clasp for a clean, professional look all around.

So you can get started using your popcorn popper right away, this kit comes with (1000) 1 oz. Carnival King popcorn bags, Carnival King Kettle Kleen popcorn kettle cleaner to remove tough grease and oil build-up, and 24 pre-proportioned quantities of large butterfly kernel popcorn. To use the packets of pre-proportioned popcorn, simply let your 4 oz. or larger popcorn kettle heat up and pour the contents into the kettle. Within minutes your kettle will be filled with buttery, fresh popcorn! Each packet yields approximately 16 cups of popped popcorn. This quality popcorn kit includes non-GMO kernels and seasoning salt and the coconut popping oil offers a clean and light taste. Containing 0g trans fat per serving, this all-in-one popcorn kit makes it easy to produce consistently buttery batches of fresh popcorn!

Kit Includes:

- (1) 4 oz. popcorn machine / popper
- (1) Cart for 4 oz. popcorn popper
- (1) 31 oz. bottle popcorn kettle cleaner
- (24) Pre-proportioned packets of popcorn
- (1000) 1 oz. popcorn bags
