Notes & Details

An excellent addition to concession stands, buffet lines, and other foodservice operations, this Carnival King RWS35 3.5 qt. warmer provides you with a simple way to heat and serve nacho cheese, hot fudge, chili, and your other favorite hot toppings! This warmer accepts #10 cans and can fit up to a 3.5 qt. inset or select bain marie pots (sold separately) for invaluable versatility. It allows you to place canned items directly into the warmer or, if your food comes bagged or in different packaging, to fill a bain marie pot instead. The ergonomic pump makes dispensing a breeze while helping to control portions and save you money.

With just a manual temperature control, this machine couldn't be any easier to operate! The unit's stainless steel construction helps to ensure long-lasting performance and rests atop 4 rubber feet that keep it securely in place during use. A 120V electrical connection is required for operation.
