Notes & Details

Bring a carnival favorite to any concession stand, snack bar, or ice cream parlor with this Carnival King SCM350TUB tub-style sno-cone machine! Whether you're working with cube or chunk ice, this impressive high-capacity machine effectively produces up to 500 lb. of ice per hour so you can keep up with the busiest rushes. This machine boasts a compact design that processes ice directly into the included freezer safe tub, providing you with a unit that's much smaller and lighter than comparable units with large cabinets for easier transportation. The 20" x 15" x 5 1/2" freezer safe tubs hold up to 50 lb. of ice (additional tubs sold separately), giving you the flexibility to store extra ice in a freezer to quickly fill orders on busy days. This machine even has convenient carrying handles for added portability. This unit helps you serve refreshing and tasty treats all summer long!

The backbone of this snow cone machine is its powerful 1/3 hp motor that delivers speeds of 1700 RPM. The die-cast aluminum horn, cutting head, and pusher with micro safety switch as well as the stainless steel blades provide you with a durable construction that is guaranteed to last. It features a sleek stainless steel construction that is both easy to clean and incredibly durable for long-lasting performance, while a safety reset button prevents accidental startup to help protect employees. A 6-8 oz. stainless steel scoop is included for easy and sanitary service. A 120V electrical connection is required for operation.
