Grid Size	7 Inches
Grid Style	Single
Maximum Temperature	445 Degrees F
Output	20 Waffles per Hour
Plug Type	NEMA 5-15P
Power Type	Electric
Shape	Round
Type	Belgian Waffle Irons

Notes & Details

Cook fluffy, thick waffles for your hungry customers with the Carnival King WBM13DGT belgian waffle maker! This waffle maker features 1100W of heating power to make quick work of your signature waffles and keep up with your busiest hours. It boasts intuitive digital controls and a convenient audible timer so you can set the time, close the baker, and carry on with other tasks around your busy kitchen or concession stand. Plus, the ergonomic cool-touch handle is an added safety feature that helps prevent burns.

This waffle baker features two aluminum grids with a non-stick coating, allowing you to create waffles up to 7" in diameter while providing a clean release that allows guests to enjoy every last bite! Its efficient cooking system combines with a rotating design to ensure the consistent, even baking of up to (20) 1 1/4" thick waffles per hour. The temperature is adjustable up to 445 degrees Fahrenheit and, with a bright orange indicator light, it's simple to identify when the unit is heating up. A conveniently located lighted green switch always lets you know when this waffle baker is powered on and, thanks to its heavy base and non-skid feet, you can be sure this unit will stay in place when in use. The removable drip tray catches overflow to keep your countertops presentable and expedite cleanup. This unit requires a 120V electrical connection for operation.
