Notes & Details

Bring a carnival favorite to any concession stand, snack bar, ice cream parlor, or fair with this Carnival King Royalty Series SCM350R reinforced cabinet sno-cone machine with a removable cup dispenser and a merchandising cart! Whether you're working with cube or chunk ice, this impressive high-capacity machine effectively processes up to 500 lb. of ice per hour so you can keep up with the busiest rushes. To make serving as easy as possible, an attached cup dispenser holds 8 oz. sno-cone cups. The cabinet holds up to 40 lb. (550 oz.) of processed ice, giving you the flexibility to store extra ice to prepare orders quickly on busy days. This unit helps you serve refreshing and tasty treats all summer long!

You will get more out of your sno-cone machine with the included merchandising cart. It's a great way to prominently display your ready-to-eat sno-cones and organize the syrups and supplies. Plus, your customers are sure to love its classic appeal and festive blue powder-coated steel design. This cart features a side shelf that's perfect for preparing ingredients, holding syrups, or merchandising cups and spoons for quick sale at stadiums, fairs, and other events. The sturdy handle enables easy, comfortable maneuvering as you push your mobile sno-cone cart to and from your most popular selling locations. The large, 16" rear wheels make this mobile unit look great while giving you the versatility to take your sno-cone machine anywhere! Underneath, the cart features a cubbyhole storage area with plenty of room for scoops, cups, or extra syrups.

The backbone of this snow cone machine is its powerful 1/3 hp motor that delivers speeds of 1700 RPM. High-visibility tempered glass doors and acrylic panels as well as the removable cup dispenser and decal help merchandise the freshly processed ice. The die-cast aluminum horn, cutting head, and pusher with micro safety switch as well as the stainless steel blades provide you with a durable construction that's guaranteed to last. A safety reset button prevents accidental startup to help protect employees, while a slanted bottom, front-mounted drain valve and draining hose make cleaning a breeze. A 6-8 oz. stainless steel scoop is included for easy and sanitary service. A 120V electrical connection is required for operation and the sno-cone machine is ETL US & Canada and CE listed.
