Handle	With Handle
Material	Polyethylene Stainless Steel
Shape	Rectangle
Style	Stationary
Type	Outdoor Coolers

Notes & Details

Built for the great outdoors, the CaterGator CG20CHR charcoal 20 qt. rotomolded outdoor cooler / ice chest keeps food cool and holds ice. This impressive feat is made possible with a triple-insulated design, which boasts a layer of high-density polyethylene, a layer of polyethylene and foam, and a final layer of food-grade polyethylene. Plus, the rigid, charcoal exterior and 304 stainless steel hardware provide the durability you need to keep up with your many trips and remote events. From upscale receptions to festivals and fairs, venues will be easier to work with due to this cooler's reliability and convenience.

To ensure ease of use, this cooler features a stainless steel handle with an extended grip, making it comfortable to carry and transport. The exterior also includes indentations, while the rubber latches boast finger indentations for superior ergonomics. Self-stopping lid hinges help simplify access too, so you can quickly and easily retrieve ice, chilled beverages, and other products with ease.

In addition, the lid itself delivers exceptional versatility, with a 14" ruler engraved along its edge and two built-in cup holders. Two bottle openers are also included, which function as metal-reinforced padlock slots when you want extra security. After use, this cooler is easy to wash thanks to a built-in drain plug, and because it's attached with a chain, it won't be misplaced on the job. Wherever the party and whatever the menu, this cooler / ice chest provides the holding power, durability, and convenience that you need and want. Keep guests well-fed and properly hydrated with the help of CaterGator!
