Product Line	CaterGator Dash
Style	Single
Type	Combo Kits Food Pan Carriers

Notes & Details

Designed for transport, the CaterGator Dash top loading insulated food pan carrier provides the versatility and quality you need to safely deliver pans of food. It holds (1) 8" deep full size food pan to accommodate any of your signature dishes. It will work with most types of pans as well, including foil, plastic, and even stainless steel. The versatile design allows you to mix and match a number of pan combinations to best suit your needs, including (3) 2 1/2" deep, (2) 4" deep, (1) 6" deep and (1) 2 1/2" deep pans, making this carrier a go-to choice for any application.

Because the carrier is made with expanded polypropylene (EPP), it offers superior temperature retention and maintains hot or cold food temperatures for up to 4 hours.

As an added bonus, this carrier comes equipped with a blue full size ice board that is convenient and easy to use. This board will extend the temperature holding times of your cold foods beyond 4 hours by simply placing it in the freezer for up to 8 hours before placing in the carrier. The board will freeze to as low as 10 degrees Fahrenheit and will keep your food at a safe temperature below 41 degrees Fahrenheit. The board is filled with a conductive cooling gel, so you don't have to worry about buffing any water noise, or liquid leakage! It contains no cavities, meaning no matter how you place the board in the freezer, the board will freeze evenly. This board lays flat in carriers and comes equipped with distance knobs that prevent the board from sticking to the pan. A built-in handle conveniently lifts the board in and out of the carrier to avoid injury.

This insulated pan carrier features a professional grade construction made from expanded polypropylene (EPP), an insulated material with a high level of durability. This high-tech material is extremely lightweight and offers excellent impact, water, and chemical resistance. Not only a durable and lightweight option, this carrier is an eco-friendly choice for your business. It includes molded-in handles for easy transportation that are both convenient and ergonomic. This design allows the carrier to stack with similar carriers and simplify storage.

Delivering quality products at a fair price, CaterGator is the ideal serving solution for catering businesses, hotels, food trucks, and concession stands. Upgrade your catering services with this insulated food pan carrier!

Kit Includes:

- 1 Food pan carrier
- 1 Ice board
