Cooking Performance Group CL-CPG-15-NL 15" Natural Gas Countertop Lava Briquette Charbroiler - 40,000 BTU

Notes & Details

Tempt your customers with the intoxicating aroma of grilled burgers, chicken, steak and more by cooking them on this Cooking Performance Group CL-CPG-15-NL 15" countertop charbroiler! It boasts a powerful 40,000 BTU stainless steel U-shaped burner to heat your included lava briquettes, which in turn evenly distribute the heat toward your food while catching the drippings to create that unmistakably smoky "outdoor barbecue" scent and flavor. The reversible cast iron top grates give your meats tantalizing grill marks, sporting a thin side that's perfect for searing and a thick side that's great for your more delicate foods. They can also be used in a flat or sloped position so that you can simultaneously cook various foods to the desired level of doneness!

Thanks to its stainless steel construction, a full width waste tray and the ability to remove the cast iron grates and stainless steel burners without tools, the Cooking Performance Group CL-CPG-15-NL 15" lava briquette charbroiler is both durable and extremely easy to clean! It's even designed for the countertop, providing much-needed space-efficiency. It has a 3/4" rear gas connection and ships ready to connect to a Natural Gas supply, but includes a Liquid Propane orifice kit for simple field conversion.
