Cooking Performance Group COH-D4-M Electric Digital Countertop 4 Tray Half Size Convection Oven with Moisture Injection - 208-240V, 2700W

Notes & Details

Add a versatile and space-saving oven to your kitchen with this Cooking Performance Group COH-D4-M electric digital countertop half size convection oven. This convection oven has many functions for medium-high volume that make it perfect for baking cookies, pastries, and other baked goods to roasting vegetables or finishing other dishes. Plus, it features programmable digital controls with up to 99 programs with 3-stage cooking, and its compact size is great for small footprint and countertop needs to take up less space in your busy kitchen. With a recommended approximate usage of up to 8 hours per day, 5 days per week, this oven is a great addition to convenience stores, cafes, snack bars, hotels, and sports stadiums.

This convection oven's half size can handle up to 4 half size trays, and it provides optimal versatility with up to seven different rack positions and 1 1/2" spacing. For consistent, quality results, this oven features programmable or manual moisture injection while cooking. The 3/4" water connection makes set-up fast and simple. Moisture injection helps product retain its natural moisture, enables better rises, and improves crusts! This 2700-watt oven also includes a bi-directional reversing fan system for uniform airflow in the cavity to heat evenly for efficient and thorough cooking.

This digital model has intuitive digital controls with temperature adjustment up to 500 degrees Fahrenheit and an assortment of helpful features for complete control over the cooking process. This oven's features include an on / off button, two easy-to-read LED screens for the temperature and 999-minute timer, a start / stop button for manual or programmable cooking cycles, and a cooking cycle button to easily cycle through the three different cooking phases. It also has an automatic pre-heat setting, which pre-heats to 120% of the set temperature to account for heat loss during loading, and cool down function as well as an interior halogen light to better see your food inside. When your cooking is done, this unit is simple to clean with the easy-to-remove inner glass door pane, stainless steel interior and exterior, and dishwasher-safe stainless steel baffle, support racks, and wire shelving. This unit requires a 208-240V, 1 phase electrical connection for operation.
