Cooking Performance Group GT-CPG-15-NL 15" Gas Countertop Griddle with Flame Failure Protection and Thermostatic Controls - 30,000 BTU

Notes & Details

This Cooking Performance Group GT-CPG-15-NL 15" countertop griddle features an energy saving thermostat that is adjustable from 200 to 575 degrees Fahrenheit for precise temperature control, making it an excellent choice for delicate breakfast foods like eggs and hotcakes, as well as your lunch menu of chicken, hamburgers, and other meats! It boasts a powerful 30,000 BTU stainless steel U-shaped burner with a standing pilot for instant ignition that works in perfect harmony with the thermostat to maintain your selected griddle temperature during peak cooking periods. Its flame failure protection system guarantees safety and peace of mind. The 3/4" thick, 15" wide polished steel cooking surface features an impressive 20" depth that is sure to deliver all of the workspace needed.

The Cooking Performance Group GT-CPG-15-NL countertop griddle is made of stainless steel that is both durable and extremely easy to clean, includes back and side splashes to protect your walls and countertops, and even has a full width waste tray to provide you with a complete package of excellent performance and worry-free maintenance! It has a 3/4" rear gas connection and ships ready to connect to a natural gas supply, but includes a liquid propane orifice kit for simple field conversion.
