Notes & Details

Boost your foodservice operation with this Emperor's Select 60 cup insulated sushi rice container with woodgrain finish. Boasting an ample 60 cup capacity, this item is capable of holding a large amount of ready-made sushi rice, which makes it an excellent addition to any busy commercial kitchen. Its fully-insulated foam body helps to hold in moisture and prevent dehydration of rice, which keeps the rice warm and fresh for up to 2 hours. Plus, the container does not use electricity, making it a great energy-saving option that can be moved around and used in virtually any location! This container is constructed of durable stainless steel with an attractive woodgrain finish, providing years of reliable use and low-hassle cleanup. The inner bowl is also made of stainless steel, which promotes longevity and ensures that your sushi and rice dishes maintain their delicious taste.

This item also comes with an easy-open lid with an absorbency disc that further locks in moisture and helps retain heat for maximum efficiency. The lid is built with a convenient top handle as well for easy access to the container's contents. Additionally, the container's sturdy side handles enable effortless transport around your establishment for placement wherever it's needed.

Designed to keep your sushi rice warm and at the perfect consistency, this unit is not limited to just rice. It can also be used for a number of other applications including freshly-made porridges, soups, chowders, gravies, or even generous helpings of mac and cheese for your customers to enjoy! However, using this piece of equipment for products other than rice may affect the taste of your rice in the future, so it's important to thoroughly cleanse the container immediately after every use or keep multiple containers on hand for different uses.
