Notes & Details

The Estella Caffe ECB-AP1 automatic airpot coffee maker and digital display features simple, programmable digital controls and an LCD display. Designed for easy use with simple toggle-switch operation, this coffee brewer is ideal for restaurants, coffee shops, and office breakrooms.

Offer your guests tea or hot chocolate with the convenient hot water faucet on the front of the machine. Simply lift the handle on the faucet to get a steady stream of hot water. There's no need to wait for the water to warm up, as it comes out hot and ready to serve. The unit brews coffee between 190 and 200 degrees Fahrenheit for a rich, consistent product every time. Three quick recipes built into the factory default setting regulate the temperature and water flow-in mode, making it easy to start the coffee brewing process without prior programming. Easily reprogram the coffee machine to the parameters of your choice with the easy-to-use digital display.

Its external stainless steel construction gives it a sleek appearance and makes it easy to clean. To ensure you can keep up with busy hours, this compact brewer can produce up to (60) 8 oz. cups of coffee per hour. This coffee maker connects to a rear mounted water line. This unit requires a 120V electrical connection for operation.
