Plug Type	NEMA 5-15P
Style	Doser
Type	Espresso Grinders

Notes & Details

Grind up to 2.65 lb. of espresso beans in just 2 minutes with the Estella Caffè ECEG26 espresso grinder. Designed for quick, easy, one-touch operation, this model has an auto on/off feature and a lever-operated portafilter filling option. Simply place a portafilter underneath and pull the lever until you hear a click to grind the perfect amount of ground espresso directly into the portafilter head. The included, side-mounted tamper allows you to tamp the espresso into the portafilter.

Also, this model has 8 precision coarseness settings. Simply turn the adjustment handle and lock it into place with the set screw. The heavy-duty aluminum base keeps the grinder stable during operation. Plus, it operates quietly to reduce ambient noise in your coffee shop or cafe. This model offers 360W of power and requires a 120V electrical connection for operation.
