Notes & Details

Steam milk to perfection with this Estella Caffè semi-automatic milk steamer! This machine is perfect for steaming and frothing your milk offerings to help provide your guests with delicious, warm beverages effortlessly. The durable stainless steel body features a cool-touch stainless steel steam wand that provides automatic temperature control and continuous steam, allowing you to produce delicious drinks time after time.

This milk steamer boasts a semi-automatic operation, so you can simply turn the knob for steam and stop once the desired temperature and consistency is reached. It has a temperature range of 140 to 160 degrees Fahrenheit. Use the manual hot water wand to create hot water or use the unit to create foam for a variety of specialty drinks such as lattes, cappuccinos, chai tea, and hot chocolate with efficiency and precision. Additionally, the stainless steel body is easy to clean so that your machine is presentable in your establishment.

This steamer features a 1,700W heating element, which makes operating this machine simple and convenient. The machine comes ready with a removable drip tray and a 6 liter boiler. It requires a 120V electrical connection for operation and comes with a 5' power cord.
