Usage	Pasta

Notes & Details

Create delicious strands of fresh, homemade pasta that your guests will love when you use this Estella countertop pasta machine! This unit is made with durable stainless steel which is naturally resistant to corrosion and rust for increased food safety. It's designed for outstanding performance and sturdy construction so you can create delectable, perfect pasta right on your countertop! This item requires a 120V electrical connection.

This machine is powered by a 1 hp fan-cooled motor that keeps operations running smoothly with non-stop productivity designed to meet the demands of a commercial kitchen. This item features IP 67 controls that allow for easy operation and control over kneading and extruding. Plus, you can create a variety of pasta shapes with this machine using pasta dies (sold separately) to cut linguine, lasagna, and even spaghetti! This item features an interlocking lid to keep operations safe and prevent the machine from running when open. The bowl is removable, allowing for easy cleaning and sanitizing.
