Notes & Details

Storing and transporting cooled fryer oil is convenient and safe with this Fryclone 6.5 gallon orange utility pail! This orange 6.5 gallon capacity pail is a great companion for filtering, collecting, and moving cooled oil when it has reached the end of its usable life. Increase the efficiency of your commercial operation by using this pail to move products quickly and safely.

This pail is designed for functionality so you can transport cooled oil without mess or incident. For user safety, the body features a tilting handle and a helper handle on the side so that pouring is smooth and safe. Its lid is equipped with four quick locking clips to ensure that spilling will never be an issue.
