Cutting Area Width	3 3/8 Inches
Cutting Area Depth	3 3/8 Inches
Application	All-Purpose Vegetables
Dice Size	1/2 Inch
Features	Hand Wash Only NSF Certified
Installation Type	Countertop

Technical Data	
Material	Cast Aluminum
Power Type	Manual
Pusher Block Material	Polypropylene
Slice Size	1/2 Inch
Type	Dicers

Notes & Details

Save time and labor at your commercial establishment with the Garde DC12 1/2" vegetable dicer! Incorporating both convenience and efficiency, this rugged dicer allows you to chop and dice a variety of different vegetables for your soups, pastas, salads, and other food prep needs. A 3 3/8" cutting surface accommodates medium-sized fruits and veggies in a compact, space-saving footprint. This not only minimizes the amount of valuable countertop space that's being occupied, but also allows employees to rapidly process a high volume of product so they're not wasting valuable time dicing up vegetables by hand during your busiest hours!

An exclusive short throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. And, because the stainless steel is resistant to corrosion, you'll never have to worry about blade contact with tomato juice and other acidic substances. The sturdy cast aluminum construction holds up to the wear and tear of tough, daily use, while also providing years of reliable service. To ensure stability on your countertop, the four rubber feet keep the unit from sliding during operation. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.
