Installation Type	Countertop Surface Mounted
Material	Cast Aluminum
Power Type	Manual

Technical Data	
Pusher Block Material	Polypropylene
Slice Size	1/4 Inch
Type	Cutters / Slicers Straight Cutters
Usage	Heavy Duty

Notes & Details

Crisp, golden french fries are a huge money-maker and a staple on menus everywhere from food trucks to concession stands, so save time and labor with this Garde FC14 1/4" fry cutter! Incorporating convenience, efficiency, and versatility, this rugged fry cutter allows you to cut potatoes, onions, peppers, celery, and other vegetables. It accommodates potatoes up to 6" long and allows employees to rapidly process a high volume of product so they're not wasting valuable time cutting potatoes by hand during your busiest hours!

A short-throw handle with superior engineering enhances leverage for smooth, easy cutting in just one stroke. Combined with the razor sharp stainless steel blades, this user-friendly design ensures that even your newest employee will have no trouble operating it. And, because the stainless steel is resistant to corrosion, you'll never have to worry about blade contact with tomato juice and other acidic substances. The sturdy cast aluminum construction holds up to the wear and tear of tough, daily use, while also providing years of reliable service. To ensure stability on your countertop, the four rubber feet keep the unit from sliding during operation. For easy maintenance, the blade assembly and push block come apart quickly when it's time for cleaning.
