Notes & Details

Making burgers is a breeze with the Garde HDHP12 heavy-duty 1/2 lb. 5" hamburger patty molding press! Just press down on the easy-to-use lever to create pristine patties that are sure to impress and satisfy your hungry customers.

In a fast-paced kitchen, weighing and sculpting each patty by hand expends a lot of time and money, which are crucial in the foodservice industry. With this press, you can ensure that each patty is 5" in diameter and exactly 1/2 lb. of meat, which will help to exponentially increase your yield and profit. Whether you specialize in burgers, or own your own diner or cafe, you'll find yourself using this portion control tool all day!

During operation, don't forget to take advantage of the unit's convenient wax paper holder. This feature makes lining patties easier and faster than ever! Plus, when it's time to store the unit, the wax paper holder can be removed to best fit your storage space.

The press features an anodized aluminum base and stainless steel bowls that offer a durable, heavy-duty construction, designed for high-volume use. It also stores easily and saves essential counter space, thanks to its compact, ergonomic design. Using the Garde HDHP12 patty molding press doesn't just create a consistent, gourmet appearance to your hamburgers and patties, but saves you precious space, time, and money!
