Notes & Details

Create consistent burger patties with this Garde XL 181PRT512KT 5" x 1/2" tray for XL burger presses. Designed to fit Garde XL burger presses, this tray slides into the unit to work as a mold for your burger ingredients. This tray has only one mold to make consistent burger patties 5" in diameter and 1/2" in thickness, so you can serve up the juicy signature burgers your customers expect from your menu.

Since this tray comes with the necessary bumpers, this set is perfect for replacing damaged or missing components on your burger press or changing your burger press's mold size. The bumpers provide the proper spacing so that the mold tray can easily slide into the patty molding machine.
