Specifications

All models have two atmospheric type, 15,000 BTU (4.39 kW) gas infra-red burners.

Burners are individually controlled with high/low valve settings.

Fast preheat and uniform production are provided by the high efficiency infra-red burners.

Unique atmospheric burner design directs heat downward to the heavy chrome-plated rack.

Sturdy chrome-plated rack guides support the rack, which is adjustable to four positions.

Rack and rack guides are easily removed for cleaning.

Range mounted cheesemelters are securely supported by heavy-duty steel brackets.
