Item#

Quantity

model PB-330

model PB-430

Features

- Brews into included 1.5 gallon (5.7 L) radiant heat air-insulated ACS-1 Shuttle®, stainless steel container. Shuttles® are portable and will maintain hot freshly brewed coffee without additional heat.
- Also able to brew into 1.5 gallon (5.7 L) air gap Shuttles®, or 3.0 L airpots.
- Digitally controlled with PrecisionBrew™ Technology. The brewer will hold the brew temperature to +/- 1°F during the complete brew cycle.
- Many brew variables are programmable: water temperature, brew volume, pulse brewing sequence, bypass percentage, low temp/no brew, drip time, pre-infusion, and lockout, along with a programmable energy-saving 'sleep mode' feature.
- 3 Brew Volumes: from ½ gallon (1.9 L) to 1½ gallons (5.7 L). Each volume can be set by 'teach' mode to eliminate trial-&-error set-up.
- Pulse Brewing – With up to 10 pulses, the operator has complete control over the coffee grounds and water contact time.
