Specifications

UP Pot/Pan/Utility System is produced from 16GA type 300 series stainless steel construction. Shelf corners are fully welded, ground and polished smooth. A raised die-formed ledge encloses a stainless steel gusset welded to undersurface of shelf and fitted with two stainless steel screws for shelf height adjustment.

Posts are 1½" OD tubes, 16GA 18-8 type 300 series, with top caps, and sanitary, adjustable stainless steel style feet. Units and components to NSF approved and all exposed surfaces finished brush satin.

Product Guide

UP Systems are used in an efficient food service establishment. Pots, pans, racks and others are quickly transported between equipment and stored when not in use.

Easily assembled and adjusted.

Solid surface design provides easy access and quick clean up of spills. Large louvers allow uniform temperature distribution.

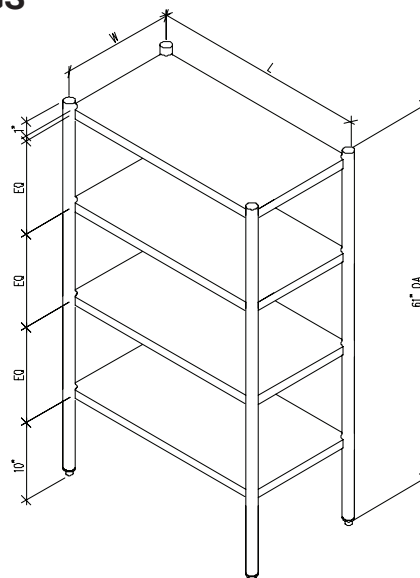

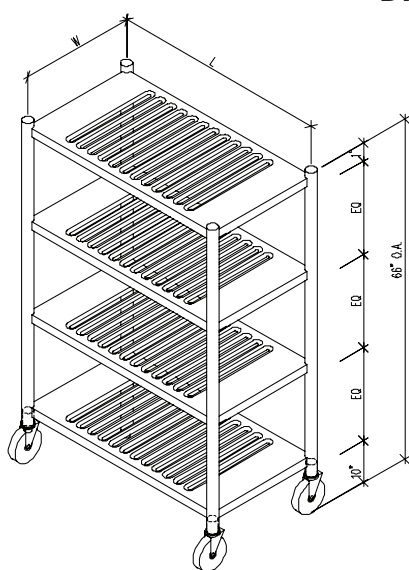

Stationary units provided with stainless steel posi-grip adjustable foot inserts.

Mobile units provided with 5" casters. See selection guide and information.
