Specifications

To be Lakeside Model 889, constructed of welded stainless steel for durability and easy cleaning and sanitation. The exterior is durable laminate over stainless steel. The bar top is constructed of 1-1/4" (32 mm) thick waterproof laminate with black finish. The top features a recessed laminate mixing shelf. The all-stainless steel interior has compartments for dispensing mechanism, syrup and water. Interior has a generous work shelf with a 70 lb. (31 kg.) capacity ice bin with drain, and built-in 10/12 circuit cold plate for water refrigeration. The syrup compartment accommodates bag-in-box or tank systems. Unit has two removable, 7-bottle stainless steel speed rails. Unit has 4 each, 5" (127 mm) casters - 2 swivel with brake and 2 fixed, fastened to a stainless steel dolly frame. Unit is NSF (ANSI 2) listed.
