

#164B30RXBAW

Approval: _____ Date: _____

Color Brown

Technical Data		
Core Type	MDF	
Features	Scratch-Resistant Seamless Edges Stain-Resistant	
Finish	Barnwood	
Installation Type	Freestanding	
Max Seating Capacity	3 - 4 Chairs	
Samples Available	Yes	
Shape	Round	
Table Seating Capacity	3 - 4 Chairs	
Tabletop Material	Laminate PVC	
Tabletop Thickness	1 Inch	
Type	Tables	
Usage	Indoor	

Notes & Details

Choose an eye-catching and reliable addition to your establishment with this Lancaster Table & Seating thermo-formed medium-density fiberboard table. The top of this table is crafted with a thermo-formed PVC cover. The cover is seamless, making it easy to clean and sure to stand up to long-term wear and tear. It is resistant to heat, stains, and scratching, making it perfect for use in a busy restaurant, hotel, or bar. The table top is also designed with a 1" medium-density fiberboard core. This core provides a sturdy foundation and adds durability and strength to the unit. It is made with resin and wood particle fused together. This design allows it to withstand more weight than plywood tables and prevents the table top from warping.

This Lancaster Table & Seating table will give your guests a comfortable place to enjoy their meal, drink, or conversation! The round design and 30" size are perfect for comfortably seating 3-4 guests. For added convenience, this unit also features a durable black melamine backer for table bases to attach to. It sports a 22" x 22" cast iron base plate while the column is made from painted steel. A resilient cast iron spider secures the column to the table top for wobble-free stability. The table top sports a barnwood finish that complements any setting while the rounded edges provide added safety for children. This table is meant for indoor use only. It is the perfect addition to your commercial establishment.

Kit Includes:

- Table top
- Table base column
- Table base spider
- Table base plate
- Hardware pack
