Notes & Details

Improve the experience of sitting around the dinner table with the Lancaster Table & Seating black vinyl cushion. Designed for indoor use with your existing Lancaster Table and Seating Alloy cafe or arm chair (sold separately), this cushion provides guests with a comfortable place to sit during their visit. The cushion conveniently screws onto the seat, which is practical for indoor usage, but can still be removed to retain the outdoor versatility of the metal chair. Adding a layer of foam between your guests and their seats will amplify their comfort, enticing them to stay longer and enjoy more. Aside from the comfort, this 1 1/2" thick cushion is made with CAL117 fire-retardant foam, decelerating the potential of smoldering spread to ensure the safety of your guests, employees, and establishment.

Take your dining experience to the next level with this stylish cushion. The black color blends well within nearly any environment while maintaining that classy, modern feel; and with the wide variety of colors offered within the Alloy line, there is ample variation to match nearly any theme or decor. This cushion simply screws into the drain hole on the seat without the need for tools. With this simple installation, you can have your new seat cover ready in no time! You can also use this cushion as a replacement for your industrial cafe chair that came standard with a vinyl cushion!

Cleanup remains as easy as it was without the cushion since the vinyl exterior protects the foam from direct contact with spills and other natural elements. No time will be wasted on new cleaning measures as you can just wipe down the vinyl with a sanitized cloth or towel. Get the most out of your Lancaster Table & Chair Alloy chair by adding comfort and style to your business with the black vinyl cushion.
