Notes & Details

Provide your smallest guests with a place to sit with the Lancaster Table & Seating standard height restaurant wooden high chair with dark brown finish! Thanks to this sturdy high chair, you can easily keep your youngest guests safe and tightly secure while they're in your family-friendly restaurant or diner. The chair is designed to keep children comfortably restrained. Plus, the sleek dark brown color adds a nice visual appeal to your dining setup.

Thanks to the rounded corners, this high chair ensures that children have a comfortable place to rest their arms while they sit. This also helps prevent other guests and wait staff from injuring themselves should they brush against the chair. The smaller opening on the side panels and leg holes, as well as the crotch panel and 3-point harness all help secure a child in place so they can't wiggle free and fall. To save you money on costly shipping expenses, this chair ships unassembled. To assemble, all necessary hardware is included. You will also receive a double-ended Allen key with screwdriver and flat head ends. Make sure you can accommodate guests of all ages with this comfortable, safe high chair from Lancaster Table & Seating.
