## Notes & Details

Add a unique, rustic ambiance to your pub, cafe, or restaurant with this Lancaster Table & Seating 24" x 30" bar height wood butcher block table with 2 cross back bar stools. From the strong, sturdy cast iron base plate and spider, to the sleek black column and durable wood top and the two cross back bar stools, this dining set is an all-in-one addition to any establishment. The table's butcher block style top highlights the natural beauty of the array of different wood species. Beech, birch, pine, ash, and oak are all found in this table top and complement, as well as contrast, with one another through natural grain pattern variance and shade. With a dark and rich espresso stain, each strip of wood accepts the stain differently, giving a uniform appearance while simultaneously allowing each unique species to stand out. Made from farmed wood, this table top provides your establishment with a distinct aesthetic that can't be duplicated.

Composed of 3/4" solid strips, the wood is affixed to 1/2" plywood for increased structural durability and stability. A 2" thick solid wood border surrounds the perimeter of the table, giving the appearance of a thicker table while maintaining a light weight composition. It is specially designed to provide you with a dining option that will look fantastic and deliver long-lasting performance at an unbeatable price. The eye-catching table top is accented and supported by the included table base. A 37 1/2" high steel column and rod extends the table top to bar height and is connected to the table top via a black, powder-coated 10" spider attachment. At the base of the table, a 22" x 22" black base plate helps to prevent the table from wobbling, ensuring stability and balance. Four glides are included to attach to the base, further assisting in leveling the table while preventing the base from scratching the floor.

Complementing the rustic table are two black cross back bar stools. Their eye-catching cross back design is contoured for a customer's back, providing unmatched comfort while maintaining a distinct look. At the same time, the black finish gives you an elegant, upscale look that matches almost any decor, while the sturdy frame provides long-lasting durability. The 2 1/2" thick padded vinyl is filled with CA117 fire-retardant foam for the best in comfort and safety, and integrated glides are designed to protect your floors from scuffing. For additional user convenience, each bar stool weighs just 18 lb. for easy mobility from one destination to the next! Whether you're using it in a restaurant, pub, or cafe, if you're looking for a table top that spotlights the beauty of nature while also focusing on an elegant dining experience, this table is the best of both worlds! This dining set comes unassembled to save you on shipping costs.
