Type	Table / Chair Sets
Usage	Indoor

Notes & Details

Add a unique, rustic ambiance to your Irish pub, ski lodge cafe, or nature inspired hotel restaurant with this Lancaster Table & Seating 30" x 30" butcher block table and cross back vinyl chair set! Made from farmed wood, this table top provides your establishment with a distinct aesthetic that can't be duplicated. The butcher block style highlights the natural beauty of the different wood species that include beech, birch, pine, ash, and oak. These beautiful woods both complement and contrast one another through natural grain pattern variance and shade. Each strip of wood accepts the dark, rich stain differently, giving a uniform appearance while simultaneously allowing each unique species to stand out.

Also included in this kit is a 25" cast iron base column, 10" spider table base, and 22" x 22" base plate. Composed of 3/4" solid strips, the wood is affixed to 1/2" plywood for increased structural durability and stability. A 2" thick solid wood border surrounds the perimeter of the table, giving the appearance of a thicker table while maintaining a light weight composition. It is specially designed to provide you with a dining option that will look fantastic and deliver long-lasting performance at an unbeatable price.

The eye-catching cross back chair design is contoured for ultimate customer comfort, providing unmatched relaxation while maintaining a distinct look for your establishment. The 2 1/2" thick black padded vinyl upholstered seat is exceptionally luxurious, with the added benefit of durability and ease of cleaning - plus, the seat is crafted with fire-retardant foam for added safety. Glides come standard to help protect restaurant and bar floors, and the chairs' black powder-coated steel frames are securely built with additional supports to enhance structural durability. If you're looking for a dining set that spotlights the beauty of nature while also focusing on an elegant dining experience, this Lancaster Table & Seating kit is the best of both worlds!
