Notes & Details

Allow your guests to dine outdoors in style and comfort with this Lancaster Table & Seating Bistro outdoor backless bar stool! Designed for outdoor use, this bar stool makes an excellent addition to restaurant and bar patios, sidewalk seating, and even outdoor entertainment areas at banquets and luaus. Its unique, bamboo-like finish instantly adds visual appeal to your establishment and will catch the eyes of both customers and passersby. To save time and hassle, this bar stool ships fully assembled.

This bar stool is made of a powder-coated aluminum that is durable enough to resist weather and corrosion while still being light weight for easy maneuvering. Its smooth surface features the look of bamboo, and the modern black, UV-resistant Teslin net woven fabric is sure to enhance your decor and help keep this outdoor bar stool looking new. Teslin is a synthetic material made from a blend of PVC and polyester fibers woven together to make a mesh-like fabric that is highly durable and affordable.

This bar stool boasts a 330 lb. weight capacity, and the frame is reinforced with additional under-seat cross bracing to provide strength and stability without adding extra bulk or weight to this sleek design. To allow guests to comfortably socialize and fully enjoy your venue, it features a backless design for exceptional mobility. Plus, its built-in footrest helps reduce pressure on your customers' legs and lower backs.

In addition to being stylish and durable, this light weight bar stool is also easy to move and transport so you can quickly reconfigure your dining space and easily clean up at the end of the night. It can be used indoors during the off-season then transferred outdoors as the weather gets nicer! Your guests will appreciate the opportunity to enjoy the temperate weather with the convenience and comfort of this outdoor bar stool and its breathable fabric! Plus, this low-maintenance material dries quickly and is easy to clean.

This bar stool can be stacked with up to four other Lancaster Table & Seating Bistro backless bar stools to maximize storage space! This stackable design makes it ideal for businesses with minimal storage space, while the legs are capped with floor glides to help protect your floors from scuffs and scratches. This added level of protection is great for indoor use should you decide to use this bar stool within your establishment. The protective glides also help keep the bar stool in place, preventing unwanted movement during use!
