Notes & Details

This Lancaster Table & Seating 22 gallon stainless steel indoor two-stream trash can is the perfect solution for your indoor waste disposal needs. This trash can is constructed of durable stainless steel, while its rubber bottom won't damage your floors. It features (2) 11 gallon compartments that make it easy for guests to sort their waste into trash and recyclable streams. The galvanized steel inner liners ensure simple waste disposal and cleaning, and the lid is easy to remove for quick, convenient bag changes.

This trash can is designed to make waste disposal simple and efficient. Each compartment features a color-coded top and large text on the front of the can to clearly indicate what type of waste should be placed in each compartment. This large capacity, multi-stream trash can is perfect for schools, hotels, shopping centers, and airports!
