Notes & Details

Keep your space clean and welcoming with this Lancaster Table & Seating 25 gallon green steel square decorative compost receptacle. Made of durable steel, this unit is built to last. The square design fits nicely into corners and blends well with any environment, while the rubber bottom ensures that the can remains securely in place and protects your floors from scuffs and scratches.

This unit's covered top helps to contain and conceal the content inside and it includes a large hole for easy waste disposal. The lid is easy to remove, and the included rigid plastic liner inside allows for convenient cleaning and bag changes. It reads "compost" on the side of the can to ensure quick identification. This unit can even be paired with others in the line (sold separately) to create a disposal center for different waste streams. Its 25 gallon capacity makes it a great option for any office, lobby, or retail store.
