## Notes & Details

For a safe, durable storage solution, rely on this Lavex Pro shelf! It's made of rugged 3/8" thick particle board and features 16 gauge powder-coated steel, double rivet beams for superior strength. It has an impressive 1,200 lb. load capacity to securely hold heavy or oversized items. Since this shelf is solid, it allows for efficient loading and unloading and can easily accommodate items that might fall through regular vented or wire shelving.

This heavy-duty shelf attaches to compatible upright posts (sold separately) to create a complete 4-shelf unit that is perfect for your industrial needs. It's designed for boltless assembly, which makes it quick and easy to install. This shelf is a dependable addition to any stockroom or warehouse. Use it to keep your facility neatly organized!
