Certifications

Technical Data

RPM	175 RPM
Solution Tank Capacity	4 Gallons
Type	Floor Machines
Wheel Size	5 Inches

Notes & Details

Keeping your floors clean and presentable at all times is made easier with the help of this Lavex Pro 20" heavy-duty single speed rotary floor machine. Whether you're cleaning a healthcare facility, airport, or retail establishment, this unit has the power to get the job done. It boasts a single speed, 1 1/2 hp heavy-duty motor for efficient operation. This machine is ideal for scrubbing, spray buffing, stripping, shampooing, and bonnet cleaning.

This unit comes with a 19" pad driver to attach floor pads onto your machine such as cleaning, buffing, stripping, and scrubbing pads. It also comes with an 18" scrub brush with soft, non-abrasive bristles to get in between grout and to scrub hard surfaces without damaging flooring. Both the pad and scrub brush are easy to securely attach to your machine using the simple tri-lock attachment system. This machine also comes with a plastic solution tank to dispense cleaning solution while scrubbing. This tank holds up to 4 gallons of cleaning solution.

This unit has a 20" pad size to increase productivity. It provides ultimate durability thanks to the heavy-duty cast iron chassis. This floor machine is easy to maneuver with the included 13 gauge steel handle, while simple transport is facilitated by the 5" non-marking ball bearing casters. It provides the ease-of-use necessary for operators to clean large areas with minimal fatigue. As an added bonus, a 50' power cord allows for an exceptionally large work area for operation. This unit requires a 120V electrical connection for operation.

Kit Includes:

- 20" heavy-duty single speed rotary floor machine
- 19" pad driver
- 18" scrub brush
- 4 gallon solution tank
