Type	Dispensers Fructose Dispensers

Notes & Details

Enhance custom flavors for your bubble tea with this Narvon bubble tea fructose dispenser. This fructose dispenser has 24 reprogrammable buttons to dispense the precise amount of fructose you desire for different beverages. The variation in programming options elevates your creative choices when designing and serving bubble tea drinks, and its LED panel creates an easy-to-read display. Consistent, fast, and user-friendly, this machine is a great addition to your food service establishment.

This fructose dispenser features a simple operation, allowing staff to quickly serve customers without extensive training. Plus, it's easy to clean and streamlines the drink preparation process to reduce wait times during peak hours. It also has precision dispensing to dispense different volumes of fructose, syrup level monitoring, temperature control, and multiple calibration settings. This machine creates a consistent product to make your delicious flavors every time. It features 300W of power and a 9 qt. capacity. It requires a 110V electrical connection for operation.
