Type	Carts

Notes & Details

Provide your customers with optimal shopping convenience with this Regency 6.3 cu. ft. supermarket black shopping cart! A perfect addition to delis, supermarkets, bodegas, and any other retail operation where carrying assistance is needed, this cart is just what your shoppers are looking for. Able to carry up to an ample 350 lb., this cart can handle the largest of shopping trips. Thanks to its durable chrome construction, this cart is built to withstand frequent use in your busy, high-traffic establishment. The corner guards prevent damage to the frame whenever it is bumped into hard objects or other carts.

With (2) 5" front swivel casters and (2) 5" rear fixed casters, maneuverability is simple when navigating through tight aisles or around other shoppers. The plastic handle is easy to grip and comfortable for your patrons to push around your establishment. With its wire style frame, water is not able to collect, meaning these carts can be easily stored under outside cart return roofs and allow for easy cleaning in the event an item spills or leaks. An optional child seat folds out and includes a restraint belt to keep children safe and secure. This cart also nests together with other like-sized carts for easy, space-efficient storage, taking up less floor space. To save on time, these carts ship fully assembled.
