- Ships knocked down

Certifications

Certified by NSF

Technical Data

Rack Style	Transport Truck
Type	Bun Pan Trucks
Weight Capacity	300 lb.

Notes & Details

Save time transporting your bun pans by stacking them on this mobile Regency bun pan truck. With its 100 pan capacity, this truck will maneuver your bun pans easily and quickly. Even when used as stationary storage for unused pans, the truck will help you save space and be ready to roll whenever you need!

The heavy-duty extruded aluminum frame makes this dolly dependable and long-lasting so that it can be used regularly in busy restaurants and bakeries. Your floors will especially benefit from the non-marking casters, and the operator will appreciate that the casters fully swivel, making moving the rack even more efficient and speedy when navigating through a room full of tall racks storing baked goods. Perfect for bakeries, hospitals, diners, and hotels, this bun pan truck is a great way to store and transport bun pans. This item is shipped knocked down, providing the best possible savings on shipping costs.
