Notes & Details

Perfect for any food service establishment, banquets, and catering, the Regency 23 3/16" x 23 3/16" aluminum dolly with handle makes it easy to move racks of dishes and ice buckets both quickly and easily. The unit boasts a durable yet lightweight aluminum construction that will hold strong beneath heavy dish racks and ice buckets and through the hustle of your busiest rushes. Plus, to avoid racks unnecessarily tipping over, it features a sturdy handle for easy and safe maneuvering! Your floors will especially benefit from the 5" non-marking casters, and the operator will appreciate their smooth design to make moving the rack even more efficient and speedy when navigating through a room full of tall racks storing dishes and glasses.

This versatile dolly holds one standard 20" x 20" dish rack, 4 Choice or Vigor ice buckets (sold separately), or stackable glass racks for effortless transport and storage, making this dish rack dolly a welcome addition for your catering and serving staff. For your convenience, the dolly can be stored discreetly beneath the sink basin or under most tables when not in use. This dependable aluminum dolly with handle will save you space and help you transport racks effortlessly!
