Notes & Details

This Regency installation kit provides you with everything you need to quickly and easily install your dipper well. When you purchase a new dipper well, you want to make sure that you have all the components you will need to install it. This installation kit is the perfect solution! With this kit, you won't need to worry about buying parts individually since it comes complete with all the parts necessary for most dipper well installations.

A dipper well is an essential part of an ice cream shop or snack bar. When you are replacing a dipper well or opening up a new shop, you'll want to make sure your dipper well gets up and running as quickly as possible. With this installation kit, you'll be able to have your new dipper well set up in record time.

Kit Includes:

- Self-piercing saddle valve assembly
- Tailpiece assembly
- 25' water hose
