Notes & Details

Perfect for busy commercial kitchens, this Regency deck-mounted faucet is the perfect solution when you need a dependable water fixture in your facility! Regency faucets provide the industry-leading quality you expect. With a chrome-plated brass faucet body and ceramic cartridges engineered for durability, you can install this model with confidence. This faucet features a 10" long swing spout that moves easily around the sink bowl, while a 2 GPM aerator provides a consistent flow rate and minimal splashing. It boasts a set of 8" adjustable centers, while the deck-mounted design is easy to install with 1/2" male NPS inlets.

This faucet uses ceramic cartridges, which provide a much lower fail rate than the compression cartridges widely used in the industry. In this design, 2 ceramic discs fit together to create a watertight seal when closed. This removes the need for a rubber seat washer, which is one of the most frequently replaced parts on a faucet. The sturdy lever handle design makes it easy to turn the water flow off and on.
