Notes & Details

This Regency 6" swing spout is perfect for use as a replacement, or you can use it to change the spout style or length of an existing faucet. It measures 6" long and has a 2 GPM aerator to provide a gentle flow pattern with minimal splashing. Since it features a swing design, you can easily move it out of the way when washing larger cooking vessels. It attaches to the faucet base with a 1/2" NPS connection and is designed for use on Regency faucets as a replacement or an upgrade.
