Notes & Details

Perfect for busy commercial kitchens, this Regency wall-mount faucet with 3 1/2" swivel gooseneck spout is an excellent choice when you need a reliable, affordable water fixture for your facility! Designed to be easy to install and easy to maintain, it's easy to see why Regency faucets are a great solution for any business. Thanks to a 3 1/2" long and 8" tall gooseneck spout, this faucet delivers water exactly where you need it, and the moveable swivel, high-clearance gooseneck design lets you move it to fill multi-compartment sinks or maneuver around larger cooking vessels.

Water exits the faucet with a 2 GPM flow rate, which creates a soft flow pattern with minimal splashing. The faucet installs on your wall or sink backsplash on a pair of 8" centers and connects to the facility water lines with a set of 1/2" NPT inlets. The faucet body is made from chrome-plated brass that complements nearly any design aesthetic, and the water flow is controlled by a pair of simple lever handles. An installation kit is required for setup (sold separately).
