Material	Stainless Steel
Type	Grates Mechanical Parts

Features

- Direct replacement for original part
- Durable stainless steel construction
- Drops into the drip pan on your glass filler station
- Compatible with select Regency and Waterloo glass filler stations

Notes & Details

Keep your water filler station operating properly with this Regency drip pan grate. This item is a direct replacement for the original part. Made with durable stainless steel for outstanding durability, this drip pan grate is made to withstand daily wear and tear in high-traffic establishments. It easily drops into the drip pan on your glass filler station. If the original drip pan grate on your water filler station is broken or missing, be sure to swap it out with this part to continue proper function. This grate is compatible with select Regency and Waterloo water filler stations.
