

Regency Black Powder-Coated Steel Open Air / Water Hose Reel with 30' x 3/4" Hose

#600HRPC3430

Technical Data

Length	20 1/2 Inches
Width	9 1/4 Inches
Height	23 Inches
Hose Length	30 Feet
Hose Interior Diameter	3/4 Inch
Application	Air Water
Color	Black Blue
Connection Type	3/4" Male / Female GHT

Features

- Corrosion-resistant, powder-coated steel reel houses 30' rubber hose
- Single arm guide ensures precise control and effortless pulling / retracting
- Locking mechanism allows for locking at preferred length
- Includes a speed control device for slow, safe automatic rewinding
- Modular reel design for convenient maintenance and inventory

Technical Data

Features	Corrosion-Resistant Locking
Included	Hose
Material	Powder Coated Steel
Maximum PSI	150 PSI
Mounting Style	Surface Mounted
Pressure	Low
Return Style	Retractable
Style	Open
Type	Hoses Reels

Notes & Details

Equip your business with the Regency black powder-coated steel open air / water hose reel with a 30' hose! Designed for versatile use in air and water applications, this convenient, spring-driven modular hose reel can be located precisely where it's needed most. With a multi-fit bracket, the base is built to be mounted on walls, ceilings, or floors for convenient access in janitorial locations and commercial kitchens. This item is made with a black powder-coated, corrosion-resistant steel housing for durable, long-lasting use and includes (1) 30' hose with a 3/4" inner diameter for air and water applications.

Designed to keep your hose neat and tangle-free by efficiently rewinding the part that is not in use, this durable reel features a reinforced steel-stamped guide arm that reduces angular pull, ensures precise control over the direction of the hose, and retracts smoothly and effortlessly for optimal performance. The reel is made with 4 non-snag direction rollers that reduce wear to maintain the integrity of the hose, and a fully enclosed, multi-position release ratchet spring locking mechanism that allows you to lock the hose at the user's preferred length. It also includes a speed control device for slow, safe automatic rewinding of the hose that prohibits reverse winding to prevent damage to the unit. This hose reel is rated to 150 PSI and features a temperature range from -4 degrees Fahrenheit to 140 degrees Fahrenheit.
