

Regency Open Powder-Coated Steel Hose Reel with 35' x 3/8" Hose and Spray Valve

#600HRPC35SV

Technical Data

Length	17 3/4 Inches
Width	8 1/16 Inches
Height	20 Inches
Hose Length	35 Feet
Hose Interior Diameter	3/8 Inch
Application	Air Water
Features	With Hose
Flow Rate	5 GPM
Inlet Size	3/8 Inch

Features

- Corrosion-resistant, powder-coated steel reel houses 35' hose
- Reinforced steel-stamped guide arm reduces angular pull and ensures precise control
- Multi-position locking ratchet allows for locking at preferred length
- 4 non-snag direction rollers reduce hose wear abrasion
- Spray valve has a flow rate of 5 GPM

Technical Data

Material	Powder Coated Steel
Maximum Pressure	300 PSI
Pressure	Low
PSI	300 PSI
Return Style	Retractable
Spray Valve Style	Standard
Sprayer	With Sprayer
Style	Open
Type	Hoses Reels

Notes & Details

Equip your business with the Regency open powder-coated steel hose reel with a 35' hose and spray valve! With a multi-fit bracket, the base is built to mount on a wall, ceiling, or floor for convenient access in janitorial locations and commercial kitchens. Highly versatile, this spring-driven hose reel can be located precisely where you need it. This compact reel is designed for water and air applications to give you ultimate functionality within a space-saving design. The hose features a 3/8" inner diameter, and it is housed on a powder-coated, corrosion-resistant steel reel for durable, long-lasting use. This model also comes fully equipped for operation with a spray valve with a 5 GPM flow rate that enables you to quickly and easily rinse items.

The reinforced steel-stamped guide arm reduces angular pull and ensures precise control over the direction of the hose. This reel also has four non-snag direction rollers that reduce wear to maintain the integrity of the 35' rubber hose. The fully-enclosed, multi-position release ratchet spring allows you to lock the hose at your preferred length, and it also prohibits reverse winding to prevent damage to the unit. This unit has a 3/8" inlet size, and it is rated at 300 PSI.
