Notes & Details

Equip your business with the Regency open powder-coated steel air / water hose reel with a 100' hose! With a multi-fit bracket, the base is built to mount on a wall or floor for convenient access in janitorial locations and commercial kitchens. Highly versatile, this spring-driven hose reel can be located precisely where you need it. The modular reel makes for convenient maintenance and inventory, and it is designed for air and water applications. The hose features a 3/8" inner diameter, and it is housed on a powder-coated, corrosion-resistant steel reel for durable, long-lasting use.

This reel includes a single guide arm for precise control over the 100' hose, which pulls and retracts smoothly and effortlessly for optimal performance. It has a locking mechanism that allows the hose to be stopped at any point to meet the users preferred length. It also includes a speed control device with a retraction time that is twice as slow as other models, which ensures safe and secure use when rewinding the hose. This unit has a 3/4" NPT outlet and it is rated to 300 PSI.
